Abstract (en)

[origin: WO2005039006A1] A method for glueing cable trees to base structures of a passenger car, particularly roof liners, lateral door parts, luggage compartment lids, wherein individual cables are encompassed by a textile strip which is preferably provided with a self-adhesive coating on one side thereof, such that a cable tree is created, and the cable tree is fixed on the base structure by means of adhesive strip sections (42) which are adhesive on both sides.
