Abstract (en)

[origin: EP1679262A1] The present invention relates to a container for packaging personal care articles, especially sanitary absorbent articles of personal hygiene. The package container has a hollow bottom being spaced away from the lower end of the container. The hollow bottom is made out of a large bottom flap (3) having the size and shape of the cross section of the container and being held in place by a holding strip (5) and at least one small flap (4).
