Abstract (en)

[origin: EP1681175A1] The presentation folder to hold a stack (16) of sheets has a cover and at least one fastening strip (13) which is at least of such width that an area (18) for a fastener, an area (19) for a spacing from the fastener to the edge of the sheet, and the height sheet stack are defined. The fastening strip is foldable around the sheet stack in such a way that the fastener in the folded-round state is concealed by the fastening strip at least on one side of the sheet stack. Independent claims are included for the following: (A) a bound booklet consisting of a presentation folder; and (B) a method for the binding-in of a stack of sheets in a presentation folder.
