Abstract (en)

[origin: FR2880638A1] The bridge has a bottom slab (4) supporting two side walls (5) connected by an upper paving slab (6). The paving slab includes two side sections (7) whose free ends are connected to the bottom slab by an inclined wall. Each side section extends beyond its junction with inclined wall and has two ears (12, 12') that are articulated between a vertical position and a permanent position in the extension of the side sections.
