Abstract (en)

[origin: WO2005045168A1] A frame (2) provided with a drainage system, which frame (2) comprises a section (3) provided with at least one sealing strip (7) as well as with a passage (13) extending through at least one wall (15, 16) of said section (3), in which passage (13) a tube (1) suitable for water drainage is present. A lower end of the tube (1) extends through the sealing strip (7), whilst at least a portion of an upper end of the tube (1) is positioned in the wall (15, 16).
