Abstract (en)  
[origin: US2007024466A1] A system for controlling information relating to a vehicle ( 10 ), including information relating to criteria the vehicle must meet according the regulations in force, in which a chip card may be read by any authorised person ( 14 ) in order to control static and/or dynamic information relating to the vehicle using a data input device. The chip card is a contactless chip card ( 12 ) permanently arranged inside the vehicle and the data input device ( 16 ) includes a contactless card reader for remotely reading information stored in the card and a display screen on which input information is displayed.
