Abstract (en)
[origin: EP1683444A1] The settee has a heading (2), which is positioned between a backrest (1') and a rear wall of the settee (1) in which upholstered seats (5) can be positioned. A central framework (4) is provided with a pad (3) and in a seat position underneath the upholstered seat a seat frame (6) is arranged. Between the seat frame and central framework a barrier is arranged and effective after moving the seat into a couch position (21, 24), which is unlocked by the lowered central framework.
