Abstract (en)

[origin: EP1683938A2] Closure comprises an axial guide (18) arranged between the head part (13) and a connecting rod for adjusting the height of the head part by tension of pressing forces. Preferred Features: The axial guide connects the head part opposite the connecting rod in a rotary direction with a holding force. The axial guide is arranged between the head part and the foot part. The head part has a peripheral band (15) on its free end to interact with an edge (16) of a closing metal sheet.
