Abstract (en)

[origin: DE102004054440A1] The condenser (1) has a condenser block (2), where a manifold (10) is arranged substantially above the condenser block. A super cooling section is arranged upper or top section condenser block. An under cooling section is arranged in a lower or middle area of the condenser block. The manifold is connected to the condenser block using fastener. The condenser block has a side part to which the fasteners are fastened.
