Abstract (en)  
[origin: WO2005051356A1] The present invention provides nanoparticulate nimesulide compositions. The compositions preferably comprise nimesulide and at least one surface stabilizer adsorbed on or associated with the surface of the nimesulide particles. The nanoparticulate nimesulide particles preferably have an effective average particle size of less than about 2000 nm. The invention also provides methods of making and using nanoparticulate nimesulide compositions.
