Abstract (en)
[origin: WO2005049271A1] The invention relates to a tool holding fixture for an insert tool (14), which comprises a substantially discoid hub (42), especially for a hand-operated angle grinder (32) or a hand-held circular saw. Said tool holding fixture comprises catch device (12) comprising a leaf spring unit (58), by means of which a catch device the insert tool (14) can be tensioned in the axial direction (64). The inventive tool holding fixture is characterized in that the leaf spring unit (58) has at least one free spring bar (110) that extends at least partially in the peripheral direction (50, 52).
