Abstract (en)

Treatment installation for ski (5) with binding (16) has a roller table (6) on which the ski rests with its running surface using rollers (9), with worktools (2) placed between the rollers to treat the running surface and the edges of the ski and a feed device for the ski pressing on to the rollers. The feed device has, running above the roller table, at least one guide (10) for a mechanised work table (11) which holds a pressure pad (13) distributed over the length of the ski.
