Abstract (en)

[origin: WO2005047115A1] A method and apparatus (10) of selectively applying a particular label from a plurality of different types of labels includes providing a label application apparatus (16) that is adapted to selectively apply (20) at least one of a plurality of different types of labels (24) to an article (a). An article is identified. The label application apparatus is controlled to selectively apply at least one of a plurality of different labels to the article as a function of the identity of that article.
