Abstract (en)
The doser has lighting units (30) to illuminate a beverage bottle and integrated to a bottle retaining unit (20) that retains the bottle placed head on bottom in the doser. The lighting units have a striplight (31) disposed around a part of the circumference of the bottle to illuminate the circumference. The striplight has a set of nine light emitting diodes (32) disposed on a support in the form of ring (21).
