Abstract (en)

[origin: EP1689049A1] The device has a base module (1.4) for supporting a bushing module and mounting module. The mounting module mounts an electrical cable with bushing. The bushing module consists of a bushing storage (2) and a handling unit, and is attached at the base module. The bushing module has a housing in which a guiding and retaining unit is arranged. The guiding and retaining unit is passed in a receiving unit of the base module.
