Abstract (en)

[origin: EP1689214A1] Method for programming and installing a lighting network comprising a series of lighting modules commanded by a DALI system and fed by a supply line (8). Said DALI system comprises at least one control module (7) connected to each lighting module, at least one DALI command module (2) for said lighting modules, an electric communication line (3) which connects said command modules (2) with said control modules (7).
