Abstract (en)

[origin: WO2005055152A1] The invention relates to a device for reproducing information on a vehicle, wherein a portable transponder unit is part of a keyless access and/or travel authorization system, transmitting a code to a control device, which is arranged in the vehicle, via a transceiver. A display, gas sensor and analysis device are located in the transponder device, said analysis device controlling the display so as to output a warning signal if the measured concentration of gas exceeds a critical threshold.
