Abstract (en)

[origin: EP1690635A2] The device has a mechanical drive, and striking facility (1) is provided for the mechanical drive on one end of the device and a fixing facility is provided for a sprinkler in another end. A free space (4) is provided for mounting the sprinkler. Position of the sprinkler in a nut-shaped mounting device (9) is determined by utilizing a mounting slot and stopper. A tool shank is provided for transferring force of the mechanical drive.
