Abstract (en)
[origin: EP1691379A2] The diverter has a coaxial line section from which a short-circuit line radially branches off. An inner conductor (10) of the short-circuit line is in electric contact with an inner conductor of the coaxial line section over a coaxial tubular capacitor. The tubular capacitor includes a metal pin which is coaxially arranged within the inner conductor of the coaxial line section and connected with inner conductor of the line.
