Abstract (en)
[origin: WO2005062278A1] A system and method for planning and tracking certification comprises generating one or more certification goals by a planner (204) based on a user profile and an authority profile associated with a certification authority. The planner (204) is responsive to user (216) selection of one or more of the generated certification goals for creating a certification plan (210). A tracker (206) that updates the certification plan (210) in response to input regarding achievement of the one or more selected certification goals.
