Abstract (en)  
[origin: US6811339B1] A multiple applicators comprising an elongated housing that is separated into multiple sealed compartments containing a liquid and an applicator tip with a score line formed at each of the sealed compartments located near the applicator tip wherein the elongated housing may be selectively severed into shorter sections at the score lines and removed. The removed section of the elongated housing is used to apply the liquid or viscous substance contained therein and disposed of after application. The remainder of the elongated housing with the remaining unused applicator tips and liquid is retained for subsequent uses.
