Abstract (en)

[origin: WO2005030488A1] Disclosed is a support cylinder (1) for a removable printing sleeve, comprising a hollow cylinder that is laterally retained by means of axial connecting pieces. Said support cylinder further comprises at least one channel (4) that is connected to a source of pressurizing means located outside the support cylinder (1) and is provided with at least one outlet port (6) which penetrates the wall and the exterior face of the support cylinder.
