Abstract (en)
[origin: EP1698469A2] Ink jets (5) apply ink and device (6) moves printing head (2) from an inactive position (A) into an operating area (B) and back. An ink waste container (7) fits in the printing head's inactive position lying directly opposite the ink jets and contains an open-pored absorber material (8). Independent claims are also included for the following: (1) A franking machine with a printing device; (2) A method for producing a printing device according to the present invention.
