Abstract (en)

[origin: EP1700706A2] The method involves printing a transparent plastic film and applying the plastic film on a metal surface by a digital print, where the plastic film is provided with a self adhesive coating at its lower side. The plastic film is scoured after the film is applied on the surface. The film is covered with a lacquer coating, where a clear varnish is used for the lacquer coating and film has a thickness of approximately 0.4 millimeter.
