Abstract (en)
[origin: EP1700969A2] The partition has modules (1) with standard dimensions, where each module is formed of outer and inner sides made of vertical tongued and grooved strips (2) made, of high quality wood, with a degree of humidity between 12 and 15 percent. A rigid and resistant mass with physico-chemical, fire retardant and self-extinction characteristics is placed between two strips. The mass has orifices to contain tubes in which wiring is arranged.
