

Title (en)

Method for adapting the heater power of a blower-supported heater to the individual pressure losses of a fresh air/exhaust gas pipe

Title (de)

Verfahren zur Anpassung der Geräteheizleistung eines gebläseunterstützten Heizgerätes an die individuellen Druckverluste eines Frischluft-Abgas-Leitungssystems

Title (fr)

Procédé pour adapter la puissance de chauffage d'un appareil de chauffage à ventilation forcée aux pertes de pression individuelles d'une conduite d'amenée d'air frais et d'évacuation de gaz d'échappement

Abstract (en)

The method involves measurement of the power of the blower at least at a given blower speed. The measured power of the blower is compared with at least a given limiting value. when the blower power falls below the limiting value, a warning signal is issued or the heater is switched off.
