Abstract (en)

[origin: EP1701581A2] A thin display stand with a sub-woofer includes a sub-woofer, a stand body, a damper and a fastener. The damper separates the sub-woofer and the stand body and is coupled with both, so that the sub-woofer and the stand body are prevented from contacting each other, and a shock from the sub-woofer is absorbed by the damper. The fastener is adapted for fixing the damper.
