Abstract (en)

[origin: EP1703027A1] The device has an overflow housing (14) that is fastenable behind an opening (13) of a sanitary product (2) e.g. bath tub. An operating unit (31) is connected with a push button (24) and a fastening body. The operating unit is utilized for operating a drain valve of the sanitary product. The push button extends into the overflow housing through the opening of the sanitary product during closing of the drain valve.
