Abstract (en)

[origin: FR2881819A1] The window has a frame comprising double insulating glazings made of glass. The glazings are composed of glass sheets (5, 6) that are spaced from each other with a confinement of an inner gas gap (8) by a peripheral spacer (7). The sheets have a thickness of the order of 3 or 4 millimeters (mm) and the inner gas gap has a thickness of the order of 13 millimeters. An independent claim is also included for a refrigerated installation such as a reach-in freezer and refrigerating unit, equipped with a casement window.
