Abstract (en)

[origin: EP1707675A1] A filling space (15) is provided for arranging a wadding (14) e.g. soil excavation. Absorbing insulating layers (13) and carrier mats (12) are integrated in the filling space for holding the wadding. The wadding is arranged between the insulating layers and carrier mats. The insulating layers are comprised of a synthetic material, non-woven cloth made from natural fibers or artificial fiber fleece.
