Abstract (en)  
[origin: DE102005007269A1] A corner joint, for strip material, especially decorative strips for angles between walls and walls and ceilings and floors, has a one piece plastic molding which is clipped onto the ends of two strips set at the selected angle and with a press fit fastening. The molding can be plastic, metal, processed wood, fiber compounds and combinations of same. The ends of the strips are shaped to enhance the clip fastening.
