Abstract (en)

[origin: EP1710510A1] The fixing kit comprises an upper holder (23) with wall rail (26) for bearing against the wall and holding a short fixing rod (12'). An adjusting bracket (36) with upper holder (40) for the upper part of the radiator panel (20) fits into an upper socket part (30) whilst a lower holder (24) for fitting onto a short fixing hook (10') has a socket for the short hook and a locator jaw (56) for fitting on the lower part of the radiator panel. Independent claim describes method for fixing radiator panel on a wall by dividing the fixing hook set in the wall so that a short hook projects away from the wall, by dividing the fixing rod so that a short rod projects away from the wall and by fitting the lower holder on the short hook, fitting the wall rail on the short rod and inserting the adjusting bracket into the socket of the upper holder.
