Abstract (en)

[origin: EP1712702A1] The system has several floor panels of supporting board with at least one coated surface with a decoration and locking devices to the supporting board edges enabling two or more panels to be joined and preventing displacement of the panels with respect to each other in and/or perpendicular to the laying plane. A first number of the floor panels (6) have supporting boards of wood or a wood material and a second number of floor panels (5) has plastic supporting boards. An independent claim is also included for a floor with a number of floor panels.
