Abstract (en)

[origin: EP1712872A1] The apparatus (5, 5') is provided in a weapon tube (1) by means of retainers (7) and has an importable body (6, 6'). A mortar cartridge (2) is provided on a side of the body and with assistance a frictional connection between the body and the front part of the mortar cartridge is produced which is large enough, to pull the mortar cartridge by means of the retainers out of the weapon tube.
