Abstract (en)

[origin: DE102004006232B3] The drawing in process for a printing press (01) has the drawing-in device (06) to which the web can be attached with a motor (11) to drive it to the receiving region, and a motor (21) to drive it to the issuing region. During drawing in, the first motor is controlled to a preset speed (v_{soll}). The second motor is controlled on the basis of a preset torque.
