Abstract (en)

The throw-away (1) bottle for babies comprises a foldable plastic container (2), a nipple unit (3) and an intermediate element (13), with the suction element (4) and the ring section (5) of the nipple unit produced as a single item. Independent claims are also included for: (A) a set of items for production of the proposed throw-away bottle; (B) a system consisting of the proposed throw-away bottle and an additional container for such a bottle.
