Abstract (en)
The container has a vertical structure (4) with horizontal lower and upper shelves (14a, 14b, 15a, 15 b) and surmounted on a base. The upper shelves (15a, 15b) are connected to the structure by a set of levers (19a, 19b, 20a, 20b), where the levers form two parallelograms articulated to guide the upper shelves in its movement between a service position (15) and a loading/unloading position (15'). The upper shelves are arranged inside the structure in the position (15), and are arranged at the level of the lower shelves (14a, 14b) and project outside the structure in the position (15').
