Abstract (en)

[origin: EP1715189A1] The silencer (11) for a compressor or a vacuum pump working on a displacement principle comprises a branching section (14) with an inlet channel (15) and branches (16, 17), with the branch (17) closed at its end. Independent claims are also included for: (A) a compressor or a vacuum pump with the proposed silencer; (B) a method for reducing noise from a compressor or a vacuum pump with the proposed silencer.
