Abstract (en)

[origin: EP1717385A2] The unit has two jackets (13, 14), which are made from aluminum profiles. The jacket (13) forms clip connections or barb connections with the jacket (14) at respective curved and overlapping side surfaces. The jacket (14) is designed as a board profile-faceplate. The jacket (13) is designed as a board profile-base and includes a screw channel (15) in longitudinal direction. The jackets are designed in U-shape in their cross section. The side surfaces are relatively short and a lower base surface is relatively broad. The surfaces are enclosed at right angle.
