Abstract (en)
[origin: GB2410932A] A support apparatus for supporting or carrying a bicycle or the like comprises support means for supporting at least a part of a wheel of the bicycle or the like and, at one end of the support means, clamping means for clamping the support means to a fixed part of the bicycle. In one embodiment, the support means comprises an elongate support member having a slot for engagement with at least a part of the wheel of the bicycle and is mounted in a recess disposed in a load carrying surface of the vehicle.
