Abstract (en)  
[origin: WO2005083550A2] A display device has a sound-generating means and a monitor display panel with a display screen. It comprises a foot part (4) with mechanical coupling means (4b) for mechanically coupling the display panel (2) and the foot part (4). The foot part is provided with the sound-generating means (6). The sound-generating means is coupled to an acoustical coupler (7) at the bottom of the foot part and to the foot part (4) itself via one or more acoustical decouplers (8), which foot part is provided with acoustical decouplers (8) at the end (4c) opposite the end (4a) provided with the monitor coupling means (4b).
