Abstract (en)  
[origin: WO2005084517A1] The invention relates to a large domestic appliance comprising a housing that surrounds a treatment compartment and a door (2) that can be displaced by a handle (1). The front of said door comprises an operating panel (3) containing control elements, in addition to an external door (4). The handle (1) is located on the operating panel (3) and is connected by a force-fit to a retaining device (11) of the door that is situated on the rear face (8) of the operating panel.
