Abstract (en)
[origin: WO2005077246A1] The invention aims at providing a device for fitting an object in a dishwasher, said device capable of being easily integrated as complementary equipment in a large number of the dishwasher racks (3) and providing the user with the possibility of rapidly filling objects and even fitting objects which are non cylindrical in shape. Therefor, the fixing device of the invention comprises a section (1) designed to be coupled with the rack of a dishwasher, and a second section (2) which extends substantially vertically forming a curve, the first section (1) being designed to be non rotating and to be coupled with a vertical element (3) of the dishwasher rack.
