Abstract (en)

[origin: WO2005053632A2] The invention relates to the use of at least one activator of PPAR-type receptors in a cosmetic composition or for the preparation of a pharmaceutical composition, said PPAR-type receptor activator or said composition being intended to regulate the size of the sebaceous glands and, in particular, to inhibit sebum production. More specifically, the invention relates to the use of such PPAR activators for the preparation of pharmaceutical compositions that are intended for the treatment of pathologies linked to sebum overproduction or in cosmetic compositions that are intended for the treatment of oily skin and/or a dandruff prone scalp.
