Abstract (en)

[origin: EP1724482A2] The clutch plate has an axle of rotation (2) around which is an arranged carrier disk (3) and to which to the radial outer edge several wing elements (4) are fastened. The wing elements are fastened to a friction lining (5). Each wing element has, in a circumferential direction an extending circular blade part (6) which lies on a first, outside radius range. In a circumferential direction an extending circular blade part (7) is provided which is on a second internal radius range, where the two radius ranges do not overlap.
