Abstract (en)
[origin: WO2005088026A1] The invention relates to an extendable shading device, comprising a shading body (11), made from a textile material and a device (12), for guiding said shading body (11). Said guide device (12) is embodied to extend at an angle in the extended state thereof such that the upper edge of the shading body (11) can run parallel to a sloping roof (3).
