Abstract (en)

The sheet stacking apparatus (100) provides a sheet stacking apparatus that positions sheets (P) that are sequentially supplied by a supplying device (200) in a predetermined stacking position, and stacks them in a pile, comprising a stacking platform (2) on which the sheets (P) supplied by the supplying device (200) are stacked, and a sheet holding device (10,4) that catches the sheet supplied by the supplying device above the stacking platform, and releases the sheet after catching so as to drop the sheet onto the stacking platform.
