Abstract (en)

Sliding door or sliding window with an improved drain, which is provided with a hollow sill post (5) with guides (14 and 15) on which are provided sliding panels (3 and 4), whereby opposite each of these panels (3 and 4) are provided drainage holes (18, 19 respectively), in an upper wall (16) and in an outward directed wall (17) of the post (5) respectively, whereby the hollow post is divided by one or several seals (20) in at least as many compartments (21 and 22) as there are panels (3 and 4), whereby each compartment (21 and 22), together with the above-mentioned drainage holes (18 and 19), forms a separate drainage channel.
