Abstract (en)  
[origin: WO2005087075A1] This invention relates to a floor cleaning implement that is provided with a handle (11) pivotally mounted on a base (10) that supports a brush arrangement (15) and a dust collecting container (16), that via a dust inlet (23) receives dust particles thrown into the container (16) by the brush arrangement (15). The base is provided with a cloth holder (17) having a plate (38) facing the floor and being covered by a dust cloth (43). The implement is also provided with a liquid container (39) and means for distributing liquid directly or indirectly to the cloth (43).
