Abstract (en)

[origin: WO2005081651A2] The invention relates to a building that has at least one delimiting part, such as a wall or a ceiling. The delimiting part includes a first layer (1) and a second layer (2) with a space (4) between the layers. According to the invention, the delimiting part is provided with liquid delivery means (5) that function to deliver liquid to said space for a fire fighting purpose. The invention also relates to a wall element of a corresponding nature, and to a fire fighting method.
